MEDICAL AND SURGICAL EXCELLENCE

St Andrew's Hospital has provided medical and surgical excellence to South Australians for more than 75 years. It is now one of Australia's largest independent standalone private hospitals.

With over 200 beds, state-of-the-art theatres and a critical care unit, we now employ over 600 staff to care for approximately 26,000 patients each year.

Our focus is on delivering excellence in patient care and in the quality of medical and surgical services we provide. We strive to create a positive and caring culture that encompasses our patients, staff and our community.

As a not-for-profit hospital, St Andrew's has relied upon the benevolence of South Australians since its earliest days. Our goal is to ensure patients at St Andrew's receive the best possible care and outcomes. Therefore, funds we raise are used to contribute to and improve the excellence in medical and surgical care provided by our teams.
